# YEAR 3 LEARNING UPDATE TERM 1, 2022

## **ENGLISH**

#### 'Analysing and creating persuasive texts'

Together we share and explore the texts 'The Shack that Dad Built' and 'The Peasant Prince'. We learn how to analyse persuasive texts. We investigate ways persuasive language features are used to influence an audience. Later, we create our own persuasive text. We also look at how a narrative text deals with an ethical situation, learning how to make inferences about characters' feelings and how to use comprehension strategies to answer questions about stories read.

#### Assessment

Assessment 1: Writing a persuasive text

Assessment 2: Reading Comprehension about 'The Peasant Prince'

## **MATHEMATICS**

We start the year revising time concepts worked on in Year 2. We revise the days of the week, months of the year, seasons and how to read calendars. Then we move onto reading, making and writing times, beginning with o'clock times then half-past times, quarter-hour times and then times to the minute. We use both analogue and digital clocks.

Later in the term we work with number and place value. We will investigate counting sequences, counting in 1's, 2's, 5's and 10's & find missing elements in sequences. Then we will explore place value of 2, 3 and 4-digit numbers; reading, writing, making numbers and learning how to show them on place value charts, number expanders and on number lines.

#### Assessment

Student portfolio of work, including pre and post-test assessments to measure individual student needs and personal improvement.

## **SCIENCE**

#### 'Is It Living?'

We learn about grouping living things based on observable features and that living things can be distinguished from non-living things. We justify sorting living things into common animal and plant groups based on observable features.

#### Assessment

Investigating Living Things: We group living things based on observable features and distinguish them from non-living things.

# HASS (Humanities and Social Sciences)

## 'Our Unique Communities'

We unpack the question "How do people contribute to their unique communities?"

We identify individuals, events and aspects of the past that have significance in the present. We identify and describe aspects of our community that have changed and remained the same over time.

# Health & Physical Education

# Fitness Fun & Cross Country

We examine the benefits of being healthy and physically active, and how they relate to endurance running, and skipping. We practice and refine fundamental movement skills to perform long-rope, partner and individual skipping sequences.

### The Resilience Project

<u>The Resilience Project</u> delivers emotionally engaging programs and provides evidence-based, practical strategies to build resilience.

The curriculum is evidence-based and mapped to the <u>Australian Curriculum</u>, focusing on Gratitude, Empathy, Mindfulness (GEM) and Emotional Literacy. We participate in weekly lessons with our class teachers.

#### Health – Cyber Heroes

We describe and apply strategies to keep ourselves safe online. We investigate digital citizenship, the personal and the private, chatting online, and cyber-bullying.

#### THE ARTS

## Music – 'Let's Celebrate, Let's Remember'

We make music and respond to music, exploring the songs used in celebrations and commemorations from a range of cultures including music for special occasions around the world. We explore the elements of music, singing simple melodic lines, and engaging with canons in listening activities.

# Media – 'Persuade to protect'

We explore representations of people, setting, ideas and story structure in advertising and persuasive presentations, focusing on moving images.

# **SUSTAINABILITY**

The Year 3's are responsible for monitoring the school's energy and water use through discussing the school's rainwater harvesting, and looking at data from the solar energy panels on the library.
